WELCOME TO COLLEGES AUSTRALIA AND NEW ZEALAND

“ Have you ever thought about studying in Australia or New Zealand? We're here to tell you more about the amazing opportunities available.

“Australian and New Zealand colleges pride themselves on offering courses that give students up-to-the-minute, real-world, practical skills and knowledge. There's a huge range of courses and subjects available and, with colleges in every major city and many smaller towns, you are sure to find a course and a location that suits.

“In this magazine you'll find profiles of some of the best Australian and New Zealand colleges; plus answers to a few of the questions we get asked most often.

“My name is Stefan and I'm from Study Options. Study Options is a completely free service for anyone looking to study in Australia or New Zealand. We provide information on what courses are available and the colleges that offer them as well as advice on what course and college might suit you best, plus practical help with making and submitting your application, and then your student visa application.

“We are a UK company with offices in Bristol and London, but everyone on our team has lived, worked or studied in Australia or New Zealand. Over the last ten years we've helped hundreds of students study in Australia and New Zealand.

“So, what are you waiting for? Going to the other side of the world to do a certificate or diploma course might sound a big step

at first, but just think: It could be the perfect opportunity to gain the skills Australia and New Zealand are looking for, improve your CV, learn a new skill or trade or to simply enjoy the famous Antipodean lifestyle – all at the same time as getting a valuable, practical, useful qualification.

“Why not give us a call, drop us an email, or make an appointment to come in and see us to find out more? We're looking forward to hearing from you.

All the best,

Stefan

Stefan Watts, director, Study Options

All details in Colleges Australia and New Zealand are correct at the time of going to press. Call 020 7353 7200 or email mail@studyoptions.com for confirmation or clarification on any information.

Are you already living Down Under? No worries....

If you're already living in Australia or New Zealand and would like some help or advice please get in touch – all the information in this booklet applies regardless of whether you're contacting us from Bristol or from Bondi Beach. So if you are coming to the end of your Working Holiday Visa and are thinking of doing a course so you get to stay in Australia or New Zealand a while longer, get in touch via www.studyoptionscolleges.com/contact-us

WHO SHOULD READ THIS MAGAZINE?

There are lots of different reasons for wanting to study Down Under. Does one of the following apply to you?

1 The traveller
Perhaps you have already spent time in Australia and/or New Zealand and would like to go back? You love discovering different cultures and lifestyles and meeting new people and would probably put travelling at the top of your list of favourite things, but, like most of us, you don't have the time or the money to be on holiday all year round. But what if you could spend six months, or a year, or even three years living in New Zealand or Australia studying toward a valuable, recognised qualification? It's a chance to indulge your love of Antipodean lifestyle and culture, while at the same time working on improving your CV, or learning new skills – it's time well spent in every way!

“ You could spend six months, a year or more in Australia or New Zealand getting a valuable, world-class qualification

2 The specialist
New Zealand and Australia are considered to be among the world's best in some industries and professions and, if you are looking to establish a career in one of these areas, there simply isn't a better place to do your training. One great example is hospitality and tourism. Both countries have earned stellar reputations in these booming global industries, based in no small part on the quality of their training and

the resulting excellence of their workforce. Doing a course in hospitality or tourism in Australia or New Zealand will give you the opportunity to soak up some of those skills and expert knowledge and benefit from the world-class contacts behind the reputations.

3 The life-changer
Feeling fed up at work? Life getting a little same-old same-old? If you are feeling in need of a change, retraining can open up a whole new world of opportunities. And you're not alone – lots of people are currently looking to learn a new skill and get a qualification that will put them on track to work in an exciting new industry. The added bonus of doing it in Australia or New Zealand is that you get to live, study and train somewhere new... in the sunshine!

4 The forward-thinker
You've decided you'd like to live and work Down Under. Maybe just for a few years, maybe you're hoping to make the move permanent. Either way, bear in mind that Australian and New Zealand colleges offer courses that train students in the trades and professions in demand in New Zealand, Australia and worldwide. So doing a course in the right area could be a great way for you to gain the skills these countries are looking for – to turn yourself into what they want!

5 The returning Working Holiday Visa maker

Maybe you've been in Australia or New Zealand on a Working Holiday Visa for a year; maybe you've gone the whole nine yards and done two years. But either way you're settled and happy in Bondi, or Fremantle, or Christchurch, or Nelson, and you're keen to find out what the options might be for staying on just that bit longer. Look no further – we can help! Please get in touch via the website (below) to tell us all about yourself and what you want to do at www.studyoptionscolleges.com/contact-us PS. The more information you can give us the better – we pride ourselves on being able to meet most wish lists...!

6 The professionals

You've got a long-standing skill or a trade – years of hard-won experience and practical know-how in your business – but you're lacking that all-important official qualification that the Australian or New

Zealand authorities want? Please get in touch – we can recommend the course that will lead to the qualification you need, or we can arrange to have your current skills and work competencies formally assessed by the relevant professional body. In some cases, RPL (skills assessments) can lead to people being awarded an Australian or New Zealand qualification immediately, which means you might not need to do any further study at all!

7 And all the rest...

Do none of the above categories fit you? Please get in touch and tell us all about yourself anyway. We have been helping students study in Australia and New Zealand for over ten years. We've heard an awful lot of stories and circumstances, from an awful lot of people, and pride ourselves on finding a solution for everyone. We're looking forward to hearing from you!

www.studyoptionscolleges.com/contact-us

STUDY OPTIONS: ALL ABOUT US

Who are we and what do we do? Study Options is a free, expert, independent service for anyone looking to study in Australia or New Zealand

We're the organisation that handle student applications to Australian and New Zealand colleges and we're here to make the whole process as stress-free as possible for you. Study Options is the official UK and Irish representative of Australian and New Zealand colleges and each year hundreds of students apply through Study Options to study in Australia and New Zealand. Have a look at our website to find out what some of them have to say about their new lives as students in Australia or New Zealand, at www.studyoptionscolleges.com/articles/student-experience

SO, HOW CAN WE HELP?

Clear, accurate, free information

Making sure you know what courses are available and which might suit you best is a key part of what we do – we're here to help. First, we have course lists for lots of different subjects. Each lists all the courses available in a particular area – business, for example, or beauty therapy – and gives the key details for each. These include exactly what the course includes, what each one will qualify you to do, how much it costs per year, when it starts, and so on.

Helpful, friendly advice

Once you've got the list, please get in touch with one of the Study Options team if you need any help deciding or would like to discuss the options. We offer free, expert, impartial advice to help you choose which college and course is right for you.

Sorting out the paperwork

Once you've decided what to apply for, we will send you the relevant application form and a list of what else you need to send in. This is likely to include a copy of your passport or birth certificate, a CV and copies of your school exam results as well as any professional qualifications you hold.

Making an application

Once you are ready, send your application to our office in Bristol. We will check to make sure that everything is complete and correct before uploading it to the college for

? Why apply through Study Options?

- 1. We are a totally free service for students! We are funded by the New Zealand and Australian colleges that we represent to help students on their behalf.**
- 2. We are knowledgeable, helpful, and easy to get hold of. We never use automated emails or call centres, so whenever you contact Study Options to ask questions or to talk about an application you will get a personal answer from one of the team.**

assessment. We will make certified copies of any original qualifications provided as part of this process and will return the originals to you by recorded delivery.

Getting an answer

We submit your applications electronically, so applying via Study Options is quicker than doing it any other way. As we are the official UK and Irish representative for Australian and New Zealand colleges, applications sent by our office are given priority, and you will get an answer more quickly than if you apply directly.

Helping with the practicalities

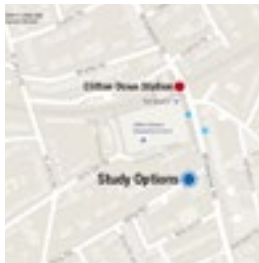

Study Options is your point of contact for the whole application process. You don't need to worry about calling Australia or New Zealand to find out what's going on; just call us in Bristol and we'll sort whatever it is out for you. This service is useful if you have an issue further along the process – for example, you need to change the start date of your course, or you've changed your mind about what you want to study. We will get in touch with the college for you to sort it out.

Friendly, expert guidance throughout each and every step of the process

From deciding where and what to apply for and making applications to accepting a place, couriering key documents to Australia or New Zealand, help with student visas, accommodation or school places for your children, we're always here to help.

“ Want to talk to us directly?

Please make an appointment to come in and see us at one of our offices

For up to date information on the courses available, free advice on which qualifications and colleges might suit you, or to request prospectuses or make an application, please contact Study Options. Call us on 020 7353 7200 or email mail@studyoptions.com

CAREER CHECK

Which course will take you toward the career you want? Let's look at a few examples

YOU WANT... TO WORK WITH ANIMALS

Possible careers: Farmer, park ranger, horse breeder or trainer, pet shop owner, veterinary nurse, animal welfare worker, fisheries worker

Do you love animals? Australia and New Zealand are great places to train in a wide range of specialist animal related fields and professions. A wide range of hands-on, practical courses are available throughout the country, so whether you're eventually hoping to farm fish or cattle, train horses or work in a pet shop, there are plenty of options available.

YOU WANT... TO WORK IN THE CARE INDUSTRY

Possible careers: Youth worker, welfare worker, community services officer, outreach officer, family support worker, child care worker, nanny

Do you want to work with children or the elderly? The care industry is one of the fastest growing in Australia and New Zealand, and one of the most diverse. Job prospects are currently very good and with an ageing population worldwide together with a growing demand for improved health and welfare services, the high levels of demand for workers in the industry are set to continue. Whatever area you decide to pursue you will be involved in a challenging but extremely rewarding career.

YOU WANT... TO WORK IN HOSPITALITY

Possible careers: Chef, baker, hotel manager, café manager

The hospitality industry is huge in Australia and New Zealand and both countries take it very seriously! With strong employment opportunities all over the world it's a great profession to be involved in. Courses in Australia and New Zealand are strongly industry focused and will set you on the right path for your career in the hospitality industry, whether you are hoping to open a cosy coffee shop, work for a global hotel chain or aspire to your own Michelin star.

YOU WANT... TO WORK WITH WINE

Possible careers: Wine maker, vineyard supervisor

Do you want to learn more about wine; or would you like to work in the wine industry? Australia and New Zealand are two of the world's top wine-producing countries. Australia alone creates over one billion litres of the stuff each year! So where better to go to learn more about how it gets from vine to bottle to shop? These courses will teach you how to operate a vineyard – studying soil conditions, pruning the vines and picking the grapes. As part of the courses you will spend time working on vineyards, giving you vital practical training and great exposure to all areas of the wine industry. During the holidays you could get a job picking and processing grapes, as workers in the grape-growing industry are always in high demand. So all you need to do is decide whether you want spend your holidays working in Margaret River, Hawke's Bay, Marlborough or the Hunter Valley...

Do you want to learn more about wine, or would you like to work in the wine industry? You could study in Margaret River, Hawke's Bay or Hunter Valley...

YOU WANT... TO LEARN A NEW TRADE

Possible careers: Bricklayer, cabinet maker, mechanic, locksmith, painter and decorator, plasterer, floor and wall tiler, wall and ceiling liner, welder, fitter

Would you like to retrain in an internationally recognised trade, and gain a new, sought-after skill? Skilled tradespeople are always in high demand all over the world, including in Australia and New Zealand. These courses provide the practical and theoretical training that will enable their graduates to work in their chosen trade. You need to be physically fit for these courses, and be prepared for spending a lot of time on your feet – but it'll all be worth it when you think of the job prospects available when you qualify.

THE BIG QUESTIONS

The idea of going to the other side of the world to study always raises lots of questions. Here, we answer a few that we get asked most often

When do courses start?

Semester 1 begins in February and semester 2 in July. Some courses do have more regular intakes – please contact Study Options to check what's available.

What qualifications will I need?

Each college sets its own course entry requirements so they vary depending on what and where you want to study. For certificate and diploma courses you will generally need GCSEs or the equivalent. It's also possible to qualify for mature age entry on the basis of work experience.

How long will it take to find out whether or not I've got a place?

It will take anywhere from one to four weeks to find out if you have an offer.

When should I apply?

We always recommend applying sooner rather than later. Places on popular courses

fill up quickly, so get your application to Study Options in plenty of time to make sure you don't miss out. If you are travelling with a family, it's definitely better to allow lots of time to everything organised – including school places for your kids – rather than leaving it to the last minute. Having said that, however, if you do not have many ties and can get yourself ready to go at short notice – or if you are already living in Australia or New Zealand – we can turn paperwork around very quickly, so can accept applications right up until a few weeks before the course starts.

Will I need a visa to study?

Yes, you'll need to get a student visa. For more information about visas, please see <http://www.studyoptions.com/visas>

When do I apply for my student visa?

You can only apply for your visa once you have received a Confirmation of Enrolment

(CoE) from an Australian college, or a fees receipt from a New Zealand college. In order to obtain a CoE or a fees receipt, you must have been given a formal offer of place by the college, accepted it in writing and paid a deposit toward your tuition fees, so the student visa actually one of the last things in the overall process to organise.

How much do courses cost?

Each college sets its own tuition fees, so the cost of a course will vary depending on what subject, qualification and college you go for, but you can usually expect to pay somewhere between A\$7,500 and A\$15,000 per year in Australia and NZ\$12,000 to NZ\$20,000 per year in New Zealand for your tuition.

“ The student visa actually one of the last things in the overall process to organise – you must have been given a formal offer of place by the college, accepted it in writing and paid a deposit toward your tuition fees first.

£ Are there additional costs if I take my family with me?

Yes. As an international student on a student (temporary) visa you'll have to pay fees for your children to go to any Australian or New Zealand school (whether state or private). Fees vary according to the age of your children and the state or territory you live in, but expect fees of around A\$4,000 to A\$17,000 per year, per child in Australia and around NZ\$9,000 to NZ\$15,000 per year, per child in New Zealand.

What other costs do I need to know about?

On top of tuition fees you need to budget for the cost of living. Depending on where you want to live this will vary considerably.

Is there any help available to pay for my study costs?

Not really. As an international student in Australia or New Zealand you will be paying international student fees and will generally need to be self-financed to pay for these and for your living costs. In Australia there are a few scholarships available from the Australian Government Endeavour VET Awards. For more details please see <https://internationaleducation.gov.au/endeavour%20program/pages/endeavour-programs-landing.aspx>. It's also worth checking to see if your chosen college offers scholarships of any kind.

Where can I find help on schools?

Please contact Study Options for advice if you are intending to travel as a family. School costs can vary enormously depending on the level of your study, the subject you do and where you are – the Study Options team can guide you through all of that information. For example, in New Zealand if you study a qualification in an area of long term skill shortage (as specified on New Zealand's long term skill shortage list) you will not have to pay international school fees for your children at all. For more information please see www.studyoptionscolleges.com/schools

Can I work while I'm studying?

Yes. On a student visa you will be allowed

to work up to 40 hours per fortnight during term-time, and full time in the holidays, in Australia. In New Zealand you can work 20 hours per week during term and full time in the holidays, provided your course is more than a year long.

I want to go with my partner. Can they work while I study?

On the Australian subclass 572 student visa your partner can work up to a maximum of 20 hours per week during your study. For New Zealand, your partner will need to apply for their own visa to be in the country, though they will be able to apply for a work visa as a partner of a student who is studying for a qualification in an area of absolute skill shortage.

Will I need medical insurance?

Yes. In Australia it is a visa requirement for you (and your family, if applicable) to have Overseas Student Health Cover throughout your time in the country as a student. A 12 month OSHC policy for someone on their own will cost around A\$450, family cover will vary depending on the size of the family. In New Zealand it's a requirement of the NZ Ministry of Education that all international students have appropriate health and travel insurance for the duration of their studies – prices vary depending on your circumstances but a basic policy will cost around NZ\$500 a year for single cover. For more see www.uni-care.org

I've been told if I study a certain course I'll be able to get permanent residency of Australia or New Zealand afterward. Is this true?

Study Options is not a migration agency and so cannot advise on migration issues, but please note that the immigration policies of both Australia and New Zealand

“ If you would like some advice on what course to study or which college might suit you best, please give us a call or make an appointment to come in and see us for a chat

🏠 Can I buy a house?

You can buy property in Australia on a student visa, but you must first seek approval from the Foreign Investment Review Board (www.firb.gov.au). Some useful websites are www.domain.com.au and www.realestate.com.au. New Zealand places no restrictions on buying property as a student visa holder. A good website with which to start your search is www.realestate.co.nz

change regularly, so no one can guarantee you such an outcome. Immigration policy can also change over the time you're studying. We'd strongly recommend that you study something you enjoy, rather than picking a course because you think it will prove your ticket into either country. If you are hoping to stay permanently after your course, we recommend you get professional advice from a registered migration agent.

I'm not sure what – or where – I want to study. Who can I go to for advice?

Study Options. We're here to help people go and study Down Under – that's all we do, so we know the countries and their education systems very, very well. If you'd like some advice on what course to study, or what college or location might suit you, give us a call or make an appointment to come in for a chat. We can also send you prospectuses or lists of all the courses available in a subject area to help you make an informed decision. We've helped hundreds of people go to Australia and New Zealand to study, so get in touch and we can help you too!

HOW TO APPLY

Follow this simple, step-by-step guide to make your application

Get in touch

Please get in touch with Study Options – call 020 7353 7200 or email mail@studyoptions.com – to discuss your situation. It's important for us to understand what you're about and what your priorities are before we give any course advice. So give us a ring, send an email, or make an appointment to come in for a chat. We will then give you a list of courses and colleges to choose from.

Do your research

The course list we give you will include full details of each course as well as practicalities – what it costs, when it starts, etc. Go through the list carefully; give one of the team at Study Options a ring to ask questions whenever you need to. We offer free, expert advice to help you decide where to apply.

Get an application form

Once you've decided which course and college to apply to, we will send you the application form and a step-by-step guide to making an application.

Already living Down Under? No worries....

If you're already living in Australia or New Zealand and would like help or advice please get in touch – all the information in this booklet applies whether you're contacting us from Bristol or from Bondi. So if you are coming to the end of a Working Holiday Visa and are thinking of doing a course so you get to stay in Australia or New Zealand a bit longer, let us know. We can help!
www.studyoptionscolleges.com/contact-us

Make your application

Send your application to Study Options. We check to make sure everything is correct and complete. If you have asked us to certify documents, we will do that at this point as well and return the originals to you by recorded delivery. Once everything is ready to go, we send your application to the college to be assessed.

“First of all, get in touch with Study Options to discuss your situation. It's important that we understand what you are all about before we start giving you course advice

Get a decision

It usually takes between one and four weeks for the college to decide whether to offer you a place. If you have been offered a place, we will send through your letter of offer and a guide to what happens next.

Get ready to go

Once you have accepted your place and the college application process is complete, we will then help you to apply for a student visa, to open a bank account in New Zealand or Australia, organise suitable accommodation and anything else you need before you start the course.

Finish the final preparations

Follow the instructions in the college's pre-departure pack carefully to make sure you arrive on time (again, feel free to contact us with any questions here); practice throwing things on the 'barbie'; start referring to flip-flops as 'thongs' (if you're going to Australia) or 'jandals' (if you're heading to New Zealand) and organise your big farewell party...

Start studying at your chosen college in Australia or New Zealand!

WHY STUDY IN NEW ZEALAND?

We take a closer look at the Land of the Long White Cloud and the opportunities it offers

New Zealand has been a favourite destination of holidaymakers and travellers for decades, thanks to its spectacular scenery, welcoming people, modern lively cities and rich, diverse culture. It regularly features in newspaper and magazine lists of the world's best places to visit, including those compiled by travel experts like Lonely Planet.

What isn't so widely known, however, is that New Zealand is also a fantastic place to study or train. New Zealand has a world-class education system, based on the system that we use here in the UK, so many of its features and qualifications will seem familiar. New Zealand's schools, colleges and universities have world-class facilities, great resources and dedicated, approachable teaching staff.

There is also an enormous choice of subjects to study, from aquaculture to trades, business to wine-making, and at a range of different study levels.

New Zealand's laidback outdoor lifestyle and deserved reputation as a safe, welcoming society has long made it a popular destination for families travelling with children, and its family-friendly reputation also holds true for students with families. Depending on the subject and length of your qualification, it may be possible for your partner to get a work visa tied to your student visa, and for your children to only be charged domestic tuition fees to attend school in New Zealand.

Please contact a Study Options advisor at www.studyoptionscolleges.com/contact-us to find out more.

Christchurch: Building a city for the future

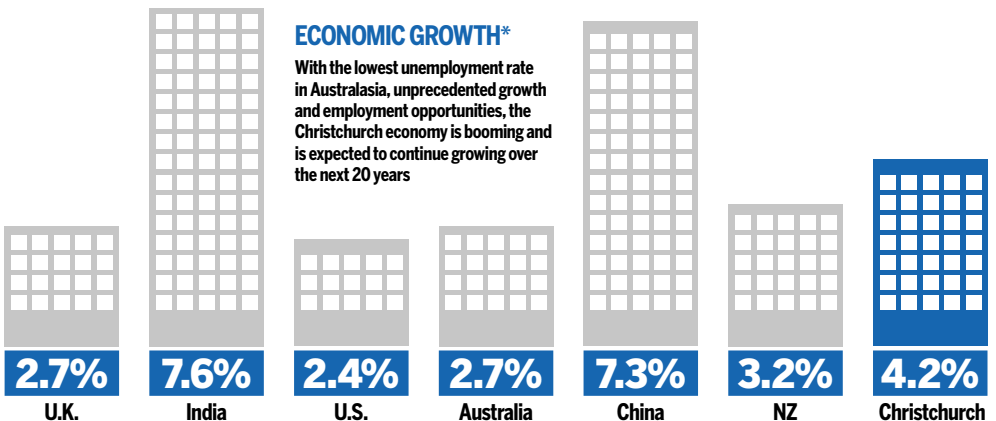

Following the earthquake of 2011, the rebuild of the South Island's largest city is creating a wealth of opportunities. The Christchurch rebuild is estimated to be a NZ\$40 billion opportunity that will drive decades of growth and development for the city and the wider region.

The rebuild means approximately NZ\$4 billion of infrastructure repair in the city, which will result in state of the

art utilities, digital networks and services; huge commercial design and development opportunities as the city's existing commercial space is set to triple; and massive residential development as more than 130,000 homes are repaired or replaced. The Christchurch rebuild requires an influx of skilled people from a wide range of sectors and trades into the city.

Christchurch has well-established, innovative colleges and universities that offer training and teaching in the areas that the city needs, both now and in the future. Please see the Christchurch Polytechnic profile on pages 18-19 for more, or contact Study Options for details of the courses taught by the University of Canterbury and Lincoln University. www.ccd.govt.nz

A DATA SNAPSHOT OF CANTERBURY... Very low unemployment and positive net migration means Christchurch needs qualified people to rebuild and develop the city. These five sectors had the greatest growth in advertised skilled vacancies in Canterbury (Jan 2014 - Jan 2015)

Data above sourced from the OECD and Informetrics Ltd. Figures current as at March 2015. See www.cdc.org.nz for latest information and figures

STUDENT VISAS: NEW ZEALAND

Anyone enrolling as an international student on a course of three months or more in New Zealand will need a student visa. Here are the key things to know

What visa will I need to study?

If the course you want to study is no more than three months long, and you hold an NZ visitor's visa or permit, then you do not need to get a student visa or permit to study. If your course is due to take three months or longer to complete, you will need a student visa.

Is there an age limit?

There are no age limits to getting a student visa in New Zealand.

Can I still get a student visa if I've already used my working holiday visa?

Yes. The student visa and working holiday visa schemes are completely separate.

“ A New Zealand student visa is valid immediately upon issuing, so once you have been granted your student visa you can use it to enter New Zealand straightaway

Can I work on a student visa?

Yes, up to 20 hours a week during term time and full time in the holidays (as long as your course is one year or longer).

How much does it cost to apply for a student visa?

Student visa applications from the UK currently cost £140, plus a processing fee of £24. Fees are subject to change, so please check www.immigration.govt.nz before making your application.

How do I apply?

You can submit an application online, or complete the Application To Study In New Zealand form, which is available from the INZ website or from Study Options (please request a copy at mail@studyoptions.com).

The application should be lodged at the New Zealand Visa Application Centre in London. You can make your application via Study Options, by post, or in person at the New Zealand Visa Application Centre, Burwood House, 14-16 Caxton Street, London, SW1H 0QY.

Will I need to provide any character documents?

All applicants for New Zealand visas need to be of 'good character', which generally means you have no criminal convictions. If you have convictions or if you intend on remaining in New Zealand for more than 24 months you will need to provide police clearances from each country for which you have citizenship. You will also need to provide police clearances for every country you have lived in for five years or more since you turned 17.

Will I need to provide health documents?

As an international fee-paying student you do not need to provide any medical documents at the point of application unless the student visa application form (INZ 1012) or the student visa guide (INZ 1013) specifically indicates that you should. If INZ requires a medical or chest x-ray during assessment, a visa officer will be in touch to request this from you directly.

How long does it take to get?

INZ recommends you allow between four and six weeks for student visa processing.

How soon can I travel, once I get my student visa?

The visa is valid immediately upon issuing, so once you have your student visa you can use it to enter New Zealand.

How long will my visa last?

The visa is valid for the duration of your course if it is up to 12 months long, or for the academic year for courses that are longer than a year.

Can I take my partner with me?

It is not possible to add your partner to your student visa as a dependant. Your partner will need to apply for their own visa to be in New Zealand if he or she wishes to work or study. They can apply for a work visa as the partner of a student who is:

- i) Studying for a qualification in an area of absolute skill shortage, as specified in the Long Term Skill Shortage List, or
- ii) studying for a postgraduate qualification.

If your course does not fall into either of these categories, your partner will need to apply to be in New Zealand of their own accord, for example under the Working Holiday Scheme, the Essential Skills Visa or the Skilled Migrant Category.

What are my obligations?

You must hold comprehensive health insurance for the duration of your stay, as only NZ residents and holders of two year or longer work permits are eligible for

publicly funded health and disability services. You also have a legal obligation to be in New Zealand on a valid permit at all times. If you fail to remain in New Zealand lawfully you may be declined a permit to remain in or a visa to travel to the country in the future.

All information is correct at the time of going to press but is subject to change. Please check INZ's website for the most up-to-date information

What will I need to apply?

See www.studyoptionscolleges.com/student-visas/student-visas-new-zealand for a full list of the documents needed to apply for a student visa for NZ.

CHRISTCHURCH POLYTECHNIC INSTITUTE OF TECHNOLOGY (CPIT)

With more than 100 years' experience and over 2,000 staff, CPIT is one of New Zealand's largest tertiary institutions. We are a government owned institution with a reputation for providing high quality degree, diploma and certificate and English language programmes.

Our programmes are all New Zealand Qualifications Authority (NZQA) quality assured and our degrees are equal in status to university degrees. Our students graduate with work-ready professional skills. Most of our degree courses include cooperative education projects in industry, leading to great employment opportunities.

You can trust CPIT to offer you a successful learning experience. Over 25,000 students each year can't be wrong!

Our courses

CPIT offers a range of applied learning opportunities and qualifications from graduate diplomas to bachelor degrees, diplomas, and certificates. Programme and subject options at CPIT include:

- Architectural studies
- Accounting
- Business management
- Business administration
- Professional cookery
- Hospitality management
- Computing and ICT
- Event management
- Restaurant/wine and bar service
- Bakery
- Information design
- English teacher training (TESOL)
- Travel and tourism
- Outdoor education and adventure tourism
- Interior design
- Construction management and quantity surveying

- Social work
- Nursing
- Medical imaging
- Midwifery
- Mental health support
- Art and design
- Vet nursing
- Photography
- Fashion technology and design
- Performing arts
- Musical arts
- Digital video post-production
- Fitness training
- Animal science
- Applied science
- Broadcasting
- Electronic engineering,
- Computer aided design
- Civil and mechanical engineering
- Project management
- Operation and production management
- Information design
- Business transformation and change
- Innovation and entrepreneurship
- Sustainability
- Systems administration
- Japanese and Chinese languages
- Maori studies

Facilities and student support

CPIT has more than 1,500 computers with 24 hour access for students. The very modern campus centre features cafes, a recreation centre, modern library, healthcare centre, and other facilities.

At CPIT, we have a team of dedicated international student advisors and admissions staff to help international students with their welfare and enrolments. We're committed to keeping our resources at the cutting edge with the latest business software systems and technologies, as well as purpose-built training resources.

Start dates and tuition fees

Academic programmes start in February and July. Each year we have two semesters. Semester one runs from late January or early February to June and semester two from July through to late November or December. Tuition fees range from NZ\$18,000 to \$27,000 per year, depending on the programme.

Living in Christchurch

Christchurch is the educational, horticultural, commercial, and tourism hub for New Zealand's South Island. With the Pacific Ocean to the east and the Southern Alps to the west, our environment is one of extraordinary natural beauty.

Christchurch offers its almost 360,000 inhabitants a unique lifestyle in a city that is vibrant, cosmopolitan, clean, friendly, and safe. Situated in the heart of the South Island, arguably the most spectacular region in New Zealand, Christchurch's beautiful gardens, clean parks, and rivers have seen it voted 'The Best Garden City' in the world. In 2012, Lonely Planet ranked Christchurch as one of the top ten cities in

the world for travellers to visit.

Christchurch International Airport has completed a striking redevelopment, winning the Oceania Routes Airport Marketing Award twice. The airport is only 20 minutes by car from CPIT.

Many arts, music and cultural festivals are held each year throughout our region and international artists regularly feature at the CBS Arena. Hagley Park is spectacular all year round and is the main venue for outdoor concerts, expos, and events.

Dance and live theatre is very popular in our city with stage shows to entertain and numerous studios to teaching steps as varied as ballroom, salsa and hip hop.

Specialist food and craft markets are held every weekend and diverse ethnicities are well represented in the city's shopping districts and restaurants.

In short, Christchurch is a great place to study, live and play!

For more information on Christchurch see
www.christchurchnz.com or

THE COLLEGE OF NATURAL HEALTH AND HOMEOPATHY

The College of Natural Health and Homeopathy is focused on just one subject: Natural health. New Zealand is the best place in the world to study it.

We offer courses in complementary medicine, natural health and wellness. For international students who want to study with us in New Zealand we offer an in-depth, fully accredited Diploma in Homeopathic Medicine. International students can come to New Zealand and take advantage of its brilliant lifestyle while studying one of the fastest growing professions worldwide, or stay at home and study via e-learning.

CNHH has been providing quality homeopathic education since 1989. We are boutique, passionate and dedicated. We specialise in natural medicine clinical training, the crucial bridge between the underpinning foundational knowledge and the application of that knowledge.

The College was the first educational institution in New Zealand to be accredited to provide homeopathy to Level 7 on the NZQA framework and is the first and only accredited provider for a Diploma of Homeopathy (Animal Health).

The College of Natural Health and Homeopathy offers flexible learning options and is unique in having campuses all over New Zealand. Studying with us provides:

- A friendly, supportive, integrated learning environment
- A range of flexible learning options
- Highly qualified, professional and experienced tutors
- Government approved courses
- The best learning technologies and e-learning
- Full-time attending and distance delivery options designed to cater for the needs of learners wishing to study homeopathy to professional registration level. The

delivery format of all full-time courses comprises ten weekends per year of intensive tutor and peer contact

- Weekend intensives which are augmented by continual assessments and supported by directed study (20 hours a week needed to successfully complete the programme).

What is homeopathy and natural health?

Homeopathy is at the heart of natural medicine. It is a system of medicine that works with the best of nature to treat a full array of acute and chronic health conditions. It is used by millions worldwide; has strong green credentials due to the cost effectiveness of manufacturing homeopathic medicines; is effective for numerous acute and chronic conditions, plus there is a growing strong and robust body of research to validate its therapeutic effectiveness.

Natural health is concerned with maintaining good health naturally through the quality of the food and drink we take in, the air we breathe, our daily physical activities, quality of sleep and interactions with other people. In other words, how we live our lives on a daily basis.

Natural practices that help us to do this when we are in a state of reduced health are those that are non-invasive and support our intrinsic self-healing processes, including homeopathy, naturopathic practices and herbalism, iridology, bioenergetic methods, massage, Reiki, acupuncture, yoga, biofeedback and hypnotherapy.

Why study natural medicine?

In addition to the individual self-learning and growth opportunities that study affords, the complementary medicine industry is growing rapidly.

- Complementary medicine is taught in more than 50% of US medical schools

and 60 percent of US medical student participants want more education related to CAM during their time in medical school

- The US public spent an estimated \$33.9 billion out-of-pocket on CAM therapies in 2007 and the amount has been increasing steadily ever since
- Complementary and alternative medicine is used by more than 100 million EU citizens, 9 million of whom live in the UK
- The percentage of Japanese respondents who had used at least one CAM therapy in the past 12 months was greater than those who had used orthodox Western medicine (76% vs 65.6%)
- 24% of New Zealand adults had visited a CAM practitioner over the 12 month study period. Massage therapists, homeopaths and naturopaths were among the most commonly consulted CAM practitioners.

Online study with CNHH

We appreciate that it is not always possible for students to travel all the way to New Zealand to study, so we also offer our homeopathy courses in an online study mode.

CNHH offers the Diploma of Homeopathy and the Diploma of Homeopathy (Animal Health) fully online. Assessments for the clinical portion of the diploma can also be completed in your home country.

Studying online from home offers you the flexibility to fit your study around work and family commitments. The lectures are available via the College Moodle site to view any time; you can also pause and return to them later. Assignments are also completed and submitted online.

The enrolment criteria for our online courses is the same as for on campus enrolments except you will not need to arrange student visas or medical insurance.

Please refer to the admission requirements section of our website for further details.

Graduate destinations

The College of Natural Health and Homeopathy has become the largest and the leading training institution in New Zealand for homeopathy courses.

To date, the College has trained over 1,000 homeopaths. Our graduates end up in the most diverse areas. Ninety-one per cent of our graduates find work in the field. Most graduates go into private practice and multi modality clinics, while many find their way to research, education, blogging, manufacturing and retail.

www.cnhh.ac.nz/international-students#international-welcome

COLLEGE OF NATURAL HEALTH & HOMEOPATHY

ACG (ACADEMIC COLLEGES GROUP)

ACG (Academic Colleges Group) is New Zealand's largest quality provider of private school education, university pathways and tertiary skills-focused programmes.

ACG comprises 11 schools and 4 tertiary colleges in three countries and offers a comprehensive range of programmes for:

- University Foundation Studies for University of Auckland and AUT University
- Diploma and certificate programmes
- Kindergarten, primary, middle and senior school education
- English language courses

ACG school education

ACG has five co-educational day schools in Auckland and Tauranga. All ACG Schools offer the University of Cambridge International Examinations: IGCSE, AS and A Levels. ACG Senior College also offers the International Baccalaureate (IB) Diploma.

University pathways

University Foundation Studies prepares international students for entry into a university's degree programmes. ACG offers the University of Auckland Certificate in Foundation Studies and AUT University Certificate in Foundation Studies. Both certificates are recognised by all New Zealand universities and top universities in Australia, including ANU, the University of Adelaide and Monash University. Successful completion of the Foundation Studies certificates to prescribed standards guarantees entry to an appropriate university's undergraduate degree.

Tertiary career focused programmes

ACG's Career Division is made up of four quality tertiary colleges which all are

Category 1 providers – the highest possible ranking from NZQA (New Zealand Qualifications Authority). Together, they train over 6,000 students each year, delivering real skills for today's professions. Programmes are industry-relevant, practical and flexible, ranging from two days to two years in duration.

● ACG Yoobee School Of Design

The largest specialised design and multimedia school in the country, ACG Yoobee School of Design has been training students for the creative industries since 1997. ACG Yoobee produces work-ready, technically skilled graduates for the creative industries. Diploma programmes are offered in graphic design; digital media; web development; game art; filmmaking; animation and 3D graphics.

● New Zealand School Of Tourism

The largest specialised tourism and travel school in the country, New Zealand School of Tourism has been training students for the airline, travel and tourism industry since 1985. The school has nine campuses throughout New Zealand, including a campus at Auckland Airport. Its tourism and travel courses prepare students for a range of careers in the industry, from

hotels to tourist information offices, travel agencies, airlines, duty free, rental cars and lots of other tourism companies. The international flight attendant course can be completed on its own or as part of a two-year management programme and graduates have been employed with airlines all around the world, from Air New Zealand to Emirates, Qatar, ANA, Garuda Indonesia and many more. NZ School of Tourism offers certificate and diplomas in tourism and travel management.

- **NZCC (New Zealand Career College)**

NZCC provides quality vocational training in the fields of business and early childhood education. With a strong emphasis on practical skills, our goal is to help students not only gain qualifications, but also develop fulfilling careers. Currently we train and transition almost 1,000 students each year, from New Zealand and around the world. NZCC offers Level 7 Diplomas in applied management in professional retailing, project management and procurement supply chain management.

- **NZMA (New Zealand Management Academies)**

NZMA has been teaching skills for today's workplace for over 30 years, producing some of the best hospitality, cookery and

business professionals in the country. Students gain relevant industry experience in our authentic training environments and we have a dedicated employment team, NZMA Careers, to support them into employment. This team makes sure that our students graduate ready for work, and helps them find part-time work, internships and full-time employment. NZMA Careers has strong relationships with many of New Zealand's biggest employers and for many organisations looking for skilled staff, NZMA is their first port of call. NZMA won Training Establishment of the Year 2015. NZMA offers diplomas in hospitality, cookery and business.

With ACG, you gain valuable practical skills and highly respected qualifications. A dedicated careers team is on hand to help graduates launch their careers, ensuring their journey at ACG is not only a pathway to further education, but also a pathway to a rewarding career.

STUDENT VISAS: AUSTRALIA

Anyone enrolling as an international student on a course lasting three months or more in Australia will need a student visa. Here are the key things to know

What type of visa will I need to study in Australia?

Anyone wanting to undertake 'vocational education and training', which includes diplomas, certificates and advanced diplomas, will be applying for a subclass 572 student visa. Those going to study a degree would apply for a subclass 573 visa.

When should I apply for my visa?

You can only apply once you have had a Confirmation of Enrolment (CoE) from an Australian college. In order to get a CoE, you must have been given a formal offer of place by the college, accepted it in writing and paid a deposit toward your tuition fees. The deposit is typically one semester's tuition fees plus Overseas Student Health Cover (OSHC).

What is OSHC?

It is an Australian student visa requirement for you (and your family, if they will be travelling with you on your student visa) to have OSHC cover throughout your time in Australia as a student. Single 12 month OSHC cover will cost around A\$450; family cover will vary according to the size of the family unit.

Is there an age limit?

No. There is no age limit on student visas for Australia.

I have already used my Working Holiday visa for Australia. Am I still eligible for a student visa?

Yes. The two visa schemes are completely separate from one another.

How long does it take?

Visa processing times vary, but allow at least two weeks for the visa to be approved.

Once I've got my student visa, when can I travel to Australia?

You can enter Australia on your student visa up to 90 days before your course starts.

Does a student visa allow me to work?

Yes, up to 40 hours per fortnight during term and unlimited hours in the holidays. When your visa is granted you will receive permission to work, though please note you are not allowed to begin working until you have enrolled and started your course. Any work that is a formal, registered part of a course is not included in the limit of 40 hours per fortnight, but unpaid or voluntary work, DOES count toward your work hours.

Can I take my partner with me?

Yes, he or she can accompany you to Australia as a dependent on your student visa provided you can prove you have been in a 'genuine and exclusive' relationship with them for at least 12 months. This usually requires you to have been living together for at least 12 months.

If my partner is a dependent on my visa, can they work while I study?

Partners of students on 572 visas are able to work up to 40 hours per fortnight, the same allowance as the student. Unlike the student, however, partners are not entitled to work longer hours in holidays – the restriction of 40 hours applies throughout.

How do I apply?

You can make your application online at www.border.gov.au, or by post using a paper application (Form 157a – Application For A Student Visa). If applying via the paper application,

you will need to send the application by post to Migration Branch, Australian High Commission, Australia House, Strand, London, WC2B 4LA.

Will I need to have a medical check?

As a UK or Irish citizen you will not be required to have a chest x-ray or medical unless you have lived in a 'higher risk' country for a period of three months or more in the last five years. Depending on the course you intend to study, however, you may be asked to have medicals. They would be required, for example, if you were intending to train as a nurse or other healthcare professional, or if you are likely to be working at an Australian childcare centre during your course.

How much does it cost?

The application fee is currently A\$550 which will need to be paid when you submit your application. Visa application charges are subject to change on 1 July each year – please see www.border.gov.au.

How long does the visa last?

Your student visa will last for the duration of your course (including holidays) and will

allow you some time to remain in Australia at the end of your studies. The time allowed after you finish is usually one to two months, depending on the length of your course and the month in which it ends. If a course ends in December, for example, the visa would usually expire in March of the following year.

Can I apply for another visa to stay in Australia after my course finishes?

In certain circumstances it may be possible for you to apply for a further visa at the end of your college course. We recommend that you check with the Australian Department of Immigration and Citizenship, via their website www.border.gov.au, for the most up to date visa information.

What do I need to apply?

If you are applying for a student visa for just yourself, you'll need a completed visa application form (or have completed the online form), a Confirmation of Enrolment (CoE), the application fee, a copy of your passport, four recent passport-sized photos and evidence that you have OSHC. If you are applying to go with your partner or with children, there will be further requirements. Please contact Study Options for more details.

THE AUSTRALIAN COLLEGE OF SPORT & FITNESS

The Australian College of Sport & Fitness has been providing award winning education for more than 29 years. We are a nationally accredited training provider and our qualifications are recognised by leading industry associations in Australia and worldwide.

We have four campuses in four different cities (Sydney, Perth, Melbourne and Brisbane) allowing students to choose a package or transfer an existing programme to live, study and experience student life right across Australia. So why not launch a new career in the sport and fitness industry with our unique, industry focussed training programmes.

Our classroom fitness and massage courses involve interactive and inspiring classes, containing a blend of theory and practical sessions. The theory classes are based in on-campus classrooms while the fitness related courses have their practical sessions conducted in a real life gym environment and the massage practical

classes are performed in a massage clinic setting. Each day contains fun, dynamic lessons with plenty of practical learning.

We offer students four intakes per year across any of our four campus locations for all of our qualifications. Intake months are January, April, July and October.

The college offers three fitness courses, a sport and recreational management course and two massage courses. Any of our courses can potentially be combined. For example, the Certificate III in Fitness + Certificate IV in Fitness + Diploma of Sport and Recreation Management = 2.5years of study in total.

Fitness

● Certificate III in Fitness

The Certificate III in Fitness is the entry level course into the fitness industry. This qualification trains individuals to work as a fitness instructor, a gym instructor and a group fitness instructor. No pre-requisite previous qualifications are required.

● **Certificate IV in Fitness**

The next step up from the Certificate III in Fitness is the Certificate IV in Fitness, which progresses on the knowledge and skill of a fitness instructor to perform one-on-one training. In addition, the individual will specialise in the strength and conditioning, training older adults and children. Applicants need to have completed the Certificate III in Fitness or equivalent.

● **Diploma of Fitness**

The Diploma of Fitness provides more advanced skills and knowledge to fitness professionals, to close the gap between a personal trainer and an allied health professional. Once qualified, the fitness professional is qualified as a specialised and rehabilitation trainer to perform training for special populations.

Specific areas of study include exercise training for individual clients with specific needs or special conditions on a one-on-one or group basis, and may include older clients and children with chronic conditions. Applicants need to have completed the Certificate IV in Fitness or equivalent.

Massage

● **Certificate IV in Massage**

This course provides skills in therapeutic relaxation massage including basic health assessment and treatment. Students are able to tailor their programme according to their own personal interest by adding their choice of elective massage module.

Some of the modalities covered by our range of elective modules include reflexology; aromatherapy; Tui Na; Shiatsu; Myofascial Release; Lomi Lomi; sports; pregnancy massage; and rehabilitation massage.

● **Diploma of Remedial Massage**

This is designed for massage therapists who want to upgrade their skills and qualifications. The on campus programme is delivered across six modules, some of which are delivered as classroom modules

and some as home study modules. It is highly flexible and will suit massage therapists currently working in the industry.

Sport and recreation management

● **Diploma of Sport And Recreation Management**

The Diploma of Sport and Recreation Management develops graduates to apply their skills and knowledge to work in the sport and recreation industry in a management or organisational capacity.

The qualification compliments existing technical qualifications such as fitness or massage by developing those skills to take a management role with an organisation. This could be in a range of settings such as health centres, fitness centres and gyms, outdoor sporting grounds or community recreation centres. No pre-requisite previous qualifications required.

Industry and international recognition

Our graduates qualifications are recognised by leading industry and international associations. Depending on the qualification these may include Fitness Australia; Physical Activity Australia; the Australian Association of Massage Therapists; European Register of Exercise Professionals; International Confederation of Registers for Exercise Professionals.

Exciting Job Outcomes

Graduating students can expect to be applying for fitness related jobs such as fitness and gym instructor; group fitness instructor; personal trainer; specialised trainer; rehabilitation trainer; or sports and recreation manager.

CRICOS: 03071E

TAFE WESTERN AUSTRALIA

For over 20 years, international students have studied at TAFE Western Australia institutes to gain a career head start and to experience the amazing sun-kissed lifestyle of Western Australia.

TAFE stands for Technical and Further Education, and is a network of government owned higher education institutes located across Perth and Western Australia that focus on teaching students valuable skills and practical knowledge.

TAFE Western Australia has over 100,000 students, including more than 3,000 international students from all over the world.

In Australia, TAFE is more popular than university because TAFE courses are shorter, more practical, less expensive and closely linked to industry. As a result, employers view TAFE graduates highly.

TAFE is a perfect option for all kinds of people. Whether you have just finished secondary school and want to pursue a study area that is more career-focussed than university, or you are a mature age student who wants a career change and a less daunting transition back into study, TAFE provides a welcoming and supportive study environment for people to achieve their best.

TAFE study is flexible, and offers a range of course lengths and levels. This means that students can choose the level of qualification that best meets their needs and interests.

If you want a shorter study abroad experience, for instance, a six month certificate course might be the perfect introduction to studying in Australia while also giving a qualification that will help you in your future career.

If you are interested in a higher level qualification, TAFE offers diplomas,

advanced diplomas and university-level associate degree courses. TAFE Western Australia has pathway agreements with prestigious Western Australian universities, which means that your TAFE qualification can give you credit towards a university degree. This can shorten your university studies significantly and save you money.

TAFE Western Australia offers modern and world-class facilities with the latest industry equipment, and students benefit from small class sizes with personalised attention from lecturers who are professionals in their field.

TAFE Western Australia also offers its students key practical advantages including work-placements and interaction with industry professionals. This career-focussed style of learning prepares students for entry into the workforce.

Exposure to industry also helps students develop relationships and connections which can be useful when transitioning to the workforce post-study.

In all, there are 36 TAFE campuses to choose from across Western Australia, ensuring that students can find the ideal base for work and play.

In Perth, all TAFE campuses are only a train or bus ride away, so it is easy to get to class and also to explore the city, the beaches and all the other attractions. TAFE students receive discounted public transport around Perth and free travel within the city centre.

TAFE campuses all have a mix of local and international students, creating an interesting and lively student atmosphere. Depending on the course, you can choose between a city campus like Central Institute which is located right near the excitement of the city centre, close to cafes, bars and shops, or a suburban campus like

Challenger Institute, West Coast Institute or Polytechnic West which are surrounded by nature in a more relaxed, laid back setting.

Or you could study at a TAFE institute in a regional town or city, ensuring a totally different student experience.

It's not all study though. At about 20 hours per week in class for most courses, students have more than enough time to make the most of the famous Western Australian beaches and lifestyle and also work part-time if they choose.

If you want to discover the best of Australia and get a head-start in life, TAFE Western Australia is waiting for you.

TAFE Western Australia offers all kinds of creative and career-focussed courses in the following areas:

- Hospitality and tourism
- Health and fitness
- Business and accounting
- Art and design
- Mass communication and multimedia
- Mining and engineering
- Computing and information technology
- Horticulture
- Aviation
- Maritime
- Community work
- Building and automotive services
- Nursing

? Take a closer look...

Carpentry

Study a Certificate III in Carpentry at TAFE Western Australia to develop the skills and knowledge you need to have a successful career as a carpenter in the domestic housing industry or commercial construction area. You will learn how to use carpentry tools, power tools and equipment, read and interpret plans, handle carpentry materials and construct pitched roof, ceiling frames and flooring systems. Carpentry formwork skills in preparation for concrete are also included. You will undertake work experience placements at various building sites. Courses are delivered at specialist facilities across Perth, such as the Trades North campus in northern Perth which is a world-class custom built centre focussed solely on trades training.

Oil and gas qualifications

Study an Advanced Diploma of Oil and Gas at TAFE Western Australia to develop the skills and knowledge you need to have a successful career in the oil and gas industry. During this course you will explore the geophysical and chemical formation of petroleum and the concepts of

petroleum geology. You will learn about drilling operations, both onshore and offshore; concepts of downhole pressure conditions and formation mechanisms, and well control methodologies. This course also covers the environmental effects of engineering.

It provides career opportunities in various areas of the oil and gas industry including project close out coordinator, joint venture coordinator, petroleum technician, and FLNG operator.

This course is delivered at Central Institute. The vibrant campus offers world class facilities and strong links to industry players.

Veterinary nursing in Western Australia

Study a Certificate IV in Veterinary Nursing at TAFE Western Australia to develop the skills and knowledge you need to have a successful career as a vet nurse. If you enjoy working with animals then this course will provide you with the practical skills and knowledge you need to help veterinarians in the treatment and care of animals requiring medical and surgical attention.

You will learn to carry out veterinary clinic reception duties, help with surgical

UK student Gemma Hart has been awarded the West Coast Institute's International Student of the Year for her dedication to becoming a nurse.

Just 18 months ago, 30-year-old Gemma thought her dream of becoming a nurse would never come true. Living in the UK with her husband and young daughter, earning money to pay the bills was a priority and that meant she could never leave the full-time secretarial job

she was in. "After buying a house and having bills to pay, I found myself stuck in a boring desk job for much longer than I ever intended," said Gemma. However, a move to Australia gave her a new opportunity.

"My grandmother was a district nurse in the UK and I always wanted to follow in her footsteps but I just wasn't able to. It was coming to Australia and doing a Diploma of Nursing at West

Coast Institute that gave me the chance to finally pursue my dream career."

On graduating from the Institute, Gemma was immediately sponsored by a health care provider where she now works as an enrolled nurse. She now plans to go on and study a Bachelor of Nursing at university which will bring her another step closer to reaching her ultimate goal of becoming a neonatal nurse.

preparations and procedures, respond to emergencies, take blood tests and x-rays and prepare medicines prescribed by the vet. You will also learn how to provide safe and effective animal care, comply with infection control and maintain equipment. You will gain a comprehensive knowledge of workplace safety, general administration, stock control as well as coordinating consulting and theatre routines. You will also take part in practical training at the veterinary clinic on campus.

Process plant qualifications

Study an Advanced Diploma of Process Plant Technology at TAFE Western Australia to develop the skills and knowledge you need to have a successful career in the process plant industry.

You will develop the practical skills and knowledge to participate in planning and managing plant shutdowns and modifications, taking a leading role in the establishment of systems intended to prevent or enable responses to incidents or emergencies and following environmental work practices. You will also learn about advanced safety case preparation, incident response management, plant documentation and environmental impacts of the process.

This course builds on the diploma course and provides career opportunities in various areas of the process plant technology industry including project close out coordinator, joint venture coordinator, petroleum technician, technical assistant, and FLNG operator.

The course is delivered at ACEPT (Australian Centre for Energy Process Training), a state of the art oil and gas training facility in Perth's southern suburbs. ACEPT has links with big players in the oil and gas industry and provides real-world like exposure to working in the industry.

Photography

Study an Advanced Diploma of Photography at TAFE Western Australia to develop the skills and knowledge you need to have a successful career as a photographer.

You will develop skills in business, research, illustration, exhibition, self-promotion and contemporary studio photography. You will also be able to choose to develop skills in industrial and scientific photography, fine art photography, design or photojournalism. You will undertake a supervised work placement, allowing you to apply the skills and knowledge you have learnt in real life situations.

This course is delivered at Central Institute in Perth's buzzy Northbridge neighbourhood, right in the centre of the city and Perth's creative arts precinct. The vibrant campus offers world class studio facilities and links to industry players.

CRICOS: 00020G/01723A**

AUSTRALIAN PROFESSIONAL SKILLS INSTITUTE (APSI)

APSI: Work and study in Perth

Branka is 28 and has been in Australia for a year. She's from Serbia, where she worked as a nurse. She is studying Aged Care and Disability at APSI, a Registered Training Organization (RTO) based in Perth, Western Australia. "Since I have a nursing background I wanted to broaden my knowledge in this field – this industry in Australia is so different in comparison to Europe."

Branka enrolled in the Certificate III in Aged Care to acquire the basic skills and knowledge of the Australian healthcare system. One of her main reasons for

APSI, a dynamic training provider which provides high quality training programmes to Australian and international students.

APSI was established in 2009. The campus is in Wellington Fair in East Perth, just a few minutes walk to the city and close to free public transport. It has training facilities with small class sizes, two computer labs and free Wi-Fi. The school has become a home from home for over 400 students from 30 different countries all over the world. "I like this multicultural environment. I am from Brazil and to me it is important to meet people from different countries. My classmates are from the Netherlands, Mauritius, Spain, Colombia, France, Philippines, Sri Lanka, Australia... The experience is great, we do a lot of activities together, you can feel the good vibes all over campus and the weather is warm and sunny all year round so we can organise outdoor activities," says Roberto, who is studying Certificate IV in Business.

Roberto also likes studying at APSI because of the lecturers, highly skilled and experienced trainers: "They are concerned not only about what we do in class but also about how our lives are going, if we feel well in Perth, if we are working. They really care."

APSI programmes

APSI offers programmes in business, management, hospitality, aged care, disability and work health and safety at levels ranging from Certificate IV to advanced diploma.

APSI qualifications can also form a part of a pathway to university, in particular our business qualifications. The courses are tailored to provide students with the skills and knowledge to perform effectively in a business environment, from supervisors and middle management to team leaders and senior managers. Management courses have a strong focus on leadership and

enrolling on APSI's Aged Care and Disability course was its workplace training content. This consists of a study plan that includes theory and practical hours in an Australian aged care facility. "Through the workplace training programme, students gain valuable exposure to the Australian workplace culture and develop the necessary skills to find and keep a job in Australia and in their own countries," says APSI's Liza Gomes. Branka is one of the students who have been offered a permanent position in the company where they did their training.

Workplace training is the key value of

development to achieve quality outcomes for participants and the organisations they represent. Students can choose from different levels of study, from Certificate IV in Frontline Management, to the Diploma and the Advanced Diploma of Management. Each course is one year long and includes three months of workplace training. APSI is the only RTO in Perth offering a one-year course with work experience in management.

This practical component is also a feature of our hospitality courses, with a minimum of six months training included in each, depending on the duration of the course. The hospitality and tourism industry is currently the third largest export earner for Australia and a career in the dynamic hospitality industry offers great opportunities. APSI's hospitality courses specialise in 'front of house' training, which means producing graduates ready to work in hotels, restaurants, bars and cafes, the wine industry, operate as a franchise, cruise line industry or coordinate in major events and functions.

Aged Care and Disability is the third key subject area at APSI with courses that can act as a pathway to studying a Bachelor of Nursing. By 2019 it is predicted that there will be more than 5,000 aged care facilities across Australia and, according to the Australian Government, the job prospects in this field are very good. Qualifications in aged care and disability provide training to students who want to work in residential aged care facilities, community care and nursing homes. The advanced level courses prepare students to manage complex clinical cases, work in the health promotion sector or coordinate a team of other aged care workers.

BROWNS PROFESSIONAL

BROWNS is an award winning global education and training group. With over 10 years of high quality training experience, BROWNS offers a range of vocational qualifications to Australian and international students. The students in our classes represent over 50 nationalities from around the world. Our programmes are globalised in perspective and practical in nature. An industry-immersed BROWNS qualification develops the international perspective and practice skills needed to change the world.

Our campus features:

- Lecture rooms with long boardroom tables, ergonomic office chairs and climate control air conditioning.
- Interactive whiteboards, connected to the web and audio visual system, with surround sound – for television, DVD and various multimedia formats
- Large glass wall panels, providing an abundance of natural light and a great panorama of the historic ANZAC park
- Three large conference style lecture rooms with wide drop-down projector

screens, connected to the web and other multimedia platforms

- BROWNS Café – modern kitchen facilities where students can prepare their lunch or have a tea or coffee with their fellow classmates
- Student study zone and private academic counselling rooms for study guidance from BROWNS academic advisors
- Free use of touch screen laptops for students and free WiFi available throughout the campus
- BROWNS Professional business programmes are designed for students aspiring to further university study in business and commerce fields. Be prepared to take your seat at the management desk with an internationally recognised qualification in business from BROWNS Professional.

CRICOS: 02663M

“ What the students say

Maria Bagnaia (Italy)

An excellent school, teachers are extremely helpful and prepared, always willing to help and understand our needs. Thank you!

Angela Barragan (Colombia)

BROWNS Professional gave me the opportunity to study a high quality vocational course in business, develop myself as a person, get the best learning experience possible and give the first step towards a successful career which will now continue with my university studies at the University of Sunshine Coast (USC).

Hyunjung Lee (Korea)

Teachers teach students to understand well. Like the small class size to have more attention from the teachers for my academic progression as I have planned to transfer into Australian universities after BROWNS professional.

Rafael Goncalves (Brazil)

BROWNS Professional has a stunning campus and great teachers!!! I'm really enjoying studying here.

HOLMESGLEN

Founded in 1982, Holmesglen has been welcoming international students to our Melbourne campuses for more than 25 years and takes great pride in engaging with and supporting our students to help them achieve their lifelong educational and career goals.

We offer an extensive range of vocational and higher education courses, all of which are accredited by the Australian government.

As a student at Holmesglen, you will experience an institute characterised by its commitment to outstanding teaching and learning and to the development of highly motivated, work-ready and respected graduates.

You can enjoy Holmesglen's outstanding facilities which provide the opportunity to learn and develop in a stimulating, modern and safe study environment. The Institute's simulated workplace facilities and industry partnerships ensure you gain the practical skills required for future employment.

Our commitment to ensuring an outstanding study experience at Holmesglen for our international students also includes the availability of a wide range

of support services across all campuses. Assistance with your language and learning skills, accommodation, recreational activities, health services, career plans, and personal guidance are some of the many services we offer to enhance your student life in Melbourne.

Come and join us at Holmesglen and discover a place where your future begins.

Scholarships

Scholarships recognising students' academic achievements are awarded to current international students studying a Holmesglen course. The scholarships will be awarded to international students who have studied at least one year in a Holmesglen

Certificate III programme or higher, demonstrated the highest level of academic achievement and an overall personal commitment to their studies.

Graduate employment service

The Graduate Employment Service (GES) is a professional recruitment service aimed at assisting Holmesglen graduates into employment following completion of

holmesglen

“ What the students say

“After some research, I found the right courses for me; the Certificate III and Certificate IV in International Trade and the Diploma of International Business at Holmesglen.

“The lecturers gave me a lot of theory information, regarding importation and exportation, communication skills, law, management and much more that have helped me work in the international

logistics and marketing/ management fields.

“The classes and teachers also helped to improve my English language skills, as I needed to listen and speak in English during my studies. My experience was very fulfilling. I learnt a lot about living by myself, working abroad and also studying at a great Australian institute.

“I became the Treasurer of the Student Association,

helping the student's 'voice' be heard within the Institute and in planning activities. After going to a lot of the activities organised by Holmesglen, I volunteered as a recreation recruit, helping them to organise events on campus, as well as gaining knowledge on how to interact with a diverse student community.

“With the many skills I've gained from my active role

in volunteering and my studies at Holmesglen, I was recommended by my course coordinator to apply for a graduate position at an international shipping firm. I am now the company's logistics analyst.

Thank you, Holmesglen, for an amazing and unforgettable time.”

**Mariana – Brazil
Diploma of International
Business Graduate (2014)**

their studies. GES has worked with thousands of Holmesglen graduates, providing students with job readiness coaching, employment assistance and career related advice. The GES also finds suitable employment opportunities for Holmesglen graduates within the field of their expertise.

The service is exclusive to Holmesglen's graduates and extends far beyond assisting them to secure employment. As the transition from the school environment to the workplace can be challenging and sometimes a daunting experience, the Graduate Employment Service ensures ongoing support by maintaining contact with the students to help them learn about workplace culture, understand processes and provide advice on resolving any issues they might encounter.

GES provides international students with tremendous opportunities to hone their job search skills, boost their confidence and make a mark in the Australian job market. Services are provided on a one-on-one basis, tailored to suit each student's specific needs. To date, the service has placed hundreds of students from all facilities and disciplines into appropriate employment across an impressive portfolio of employers.

? What can you study?

Holmesglen offers certificates, diplomas and degrees in:

Arts, design, and fashion

Our art and design courses are created around real world creative projects that give you practical experience with the latest media and technology. This emphasis on creative projects and practical experience will provide you with an impressive folio or showreel, to show employers or use towards further study. Our purpose built facilities will enhance your learning and the quality of your work. We offer courses in sports media, animation, radio, TV, fashion, graphic design, photography, professional writing, ceramics and visual arts.

Business and management

In the world of business, experience is valued as highly as a formal qualification, which is why our business and finance courses are designed to give you the real world skills the industry is looking for. Holmesglen offers fully accredited accounting courses, many of which feature industry-based projects. A qualification in accounting, commerce, business, finance, administration, marketing, HR, project management or logistics could be where your future begins.

Building and construction

Holmesglen is the most comprehensive provider of quality training for building and construction in the state of Victoria. Whether you're interested in a trade, running your own building business or managing large construction projects, our building and construction courses are relevant and respected in the industry. Offering diplomas and degrees in bricklaying, carpentry, construction, glazing, plumbing, painting, plastering, stonemasonry and tiling, a course at Holmesglen could be where your future begins.

Engineering technology

Things move quickly in the worlds of technology, electrical and engineering. Only a short time ago, there was no such thing as an IT industry. Today some of the most exciting careers in the world are in information and electrical technology. Holmesglen invests in facilities and equipment so you learn using the latest technology and our focus on practical skills

and real client projects while you study means you graduate confident, skilled and work ready. Holmesglen offers courses in an electrical trade, fabrication engineering, information and communication technology, software development and programming, web based technologies or gaming and digital media.

Information technology and multimedia

Things move quickly in the world of technology. Today some of the most exciting careers in the world are in IT. Our courses in digital media and technology will provide you with the skills and knowledge to be confident in the use of introductory multimedia and web applications. You will learn basic web page design, digital imaging, video, 2D/3D animation and IT support. Training in applications including Adobe Dreamweaver, Flash, Illustrator, Photoshop, Premier and Autodesk Maya will enable you to graduate with a basic portfolio of web design and multimedia work.

What the students say

“Holmesglen was the perfect choice for me as I always preferred working with my hands. The lessons were practically based and taught me a great deal about the furniture industry. I especially enjoyed using

machinery and tools that were identical to those used by industry professionals.

“Now I’m running my own successful cabinet making business that specialises in custom made furniture and have an ever-growing list of

clients. I’d recommend that anyone study at Holmesglen – it was an experience I will never forget.”

Jack, UK. Graduate of Advanced Diploma of Furniture Design and Technology, now director

of Nosiva – Natural Urban Living. Jack now owns and runs a Melbourne-based furniture business that specialises in custom made furniture and has an ever growing list of residential and corporate clients.

Environment and landscape

In today's world of changing climate and carbon footprints, careers in horticulture and environment have never been more relevant or topical. Whether you're after a career in conservation and land management or want to work in parks and gardens or a nursery, our courses are specially designed to give you an edge with government and private employers. Holmesglen offers courses in conservation and land management, floristry, turf management, horticulture, arboriculture and our new landscape architecture degree.

Furnishing

These courses focus on the design of furniture and the application of the design into finished furniture products or for a range of interior design careers. The furniture design course develops skills and knowledge required to design and produce individual fine furniture for display or custom production.

Health sciences and community studies

In our growing world, communities are becoming bigger, more diverse and older, causing the demand for quality care

and support to increase. At Holmesglen we have a range of health and community services courses for careers where you can really make a difference in the lives of others. Holmesglen health and community services graduates enter the work force confident, skilled and work ready due to their training in our purpose built industry standard facilities. Holmesglen offers courses in allied health, community services, dental technology, justice, nursing, pathology and laboratory testing.

Hospitality and tourism

Our focus on work ready skills and practical experience is recognised by industry throughout Australia as a winning recipe for producing outstanding graduates. Holmesglen is three times winner of the Victorian Tourism Award for Education and Training and our cookery graduates have repeated success in the Apprenticeship of the Year awards. Holmesglen offers courses in cookery, bakery or pastry wine service, events or hospitality programs as well as the new Holmesglen hospitality management degree.

TAFE QUEENSLAND: GOLD COAST AND EAST COAST REGIONAL CAMPUSES

Located on Australia's iconic Gold and Sunshine Coasts, TAFE Queensland's Gold Coast and East Coast campuses are part of a network of world-class vocational education and training facilities in the sunny state of Queensland.

You will enjoy all the benefits of internationally competitive education and training at TAFE Queensland's regional campuses, all within a safe, attractive and culturally diverse environment.

The Gold Coast institute has five campuses and enrolls around 17,000 students each year. TAFE Queensland East Coast is made up of seven campuses, spanning Queensland's Sunshine Coast and Wide Bay region, and has an annual enrolment of around 20,000 students.

One of Australia's most awarded training providers, TAFE Queensland is government owned and is a Registered Training

Organisation (RTO) that provides vocational education and training to local and international students.

At TAFE Queensland's regional campuses you will experience

a friendly, relaxed, cosmopolitan, outdoor lifestyle near some of the most beautiful beaches in the world. From theme parks to beaches, surfing to hiking, dining out to barbecues in the park, shopping and day spas, the Gold and Sunshine Coasts have everything you can imagine.

It is not just the man-made experiences that make these regions the most attractive places in Australia to study and live. Less than 30 minutes from the stunning Gold Coast beaches lies Australia's largest expanse of sub-tropical World Heritage listed rainforest, bordered by rural farmland

and bush where travellers can encounter Australia's unique native wildlife and experience a taste of country life.

Just a 20-30 minute drive from Noosa Heads on Queensland's Sunshine Coast is the lush Noosa Hinterland, a patchwork of tranquil lakes, forests and striking volcanic formations dotted by friendly country towns. Further north, and part of TAFE Queensland's East Coast region of providers, is the Bundaberg campus, ideally positioned at the gateway to the world's largest living marine formation, the Great Barrier Reef, one of the seven natural wonders of the world.

With summer temperatures ranging from 20-35 degrees and winter temperatures averaging around 10-25 degrees, TAFE Queensland's regional campuses offer the perfect study and work/life balance. At night there are countless restaurants, cafes and bars open late into the night where everyone enjoys a diverse mix of local and international fun, music, food and entertainment.

The Gold Coast will host the 2018 Commonwealth Games and as a result is rapidly developing a range of world-class sporting and recreational facilities that students are sure to benefit from.

TAFE Queensland's regional campuses offer courses that can lead to advanced entry into universities and a range of specialist qualifications for a variety of professions and trades. They provide cutting edge training, in line with industry-based requirements, preparing students for the workforce.

The Gold Coast campus has articulation agreements with Bond University, Griffith University, the University of Southern Queensland, CQ University, Southern Cross University, and Queensland University of Technology. East Coast campus students can benefit from articulation agreements with the University of the Sunshine Coast,

the University of Southern Queensland and CQ University.

You will gain practical, real-world experience in simulated workplaces such as kitchens, health clinics, gyms, hairdressing and beauty salons, design studios and workshops. TAFE Queensland works closely with industry to make sure that you are exposed to the latest workplace technologies. All courses are designed and developed in close conjunction with industry experts to ensure students are successfully placed into the workplace.

TAFE Queensland Gold Coast courses are available in aged care; automotive electrical technology; engineering; beauty therapy; commercial cookery; fitness; hairdressing; marine craft construction; travel and tourism; building design; business and commerce; information technology; nursing; software development; graphic and interior design; heavy vehicle mechanical technology; adult tertiary preparation; and early childhood education and care.

TAFE Queensland East Coast courses include automotive mechanical diagnosis; travel and tourism; hairdressing; interior design and decoration; graphic design;

screen media; accounting; business; business management; building design; early childhood; hospitality; fitness; information technology networking; aged care; mechanical trade; metal fabrication; engineering; conservation land management; fashion design and technology; nursing; commercial cookery; events; light vehicle mechanical technology and interactive digital media.

The International Student Centre can help you to settle into any one of the regional campuses and will assist you throughout your studies with TAFE Queensland. Our staff will

ensure you enjoy a smooth transition to your new study home with all the necessary support networks. The Study Centre team will assist you in with visas, signing contracts, banking, accommodation, health insurance, shopping, purchasing a car and re-settlement. Our welcoming staff can also assist in referring you to people who can help with family support, child care, employment, disability services, cultural and recreation activities and transport.

EAST COAST CRICOS: 02004B

MELBOURNE POLYTECHNIC

Melbourne Polytechnic gives you the power to rule your world through a diverse range of innovative, hands-on practical skills and modern theoretical learning.

With a history dating back more than 100 years, Melbourne Polytechnic is a government accredited institution and a vibrant and dynamic destination for international students.

In 2015, more than 700 international students from 70 countries chose to make Melbourne Polytechnic their study destination of choice.

We will give you the knowledge and skills to leap into an evolving and challenging marketplace. Melbourne Polytechnic offers the perfect combination of higher education and vocational learning, delivered by teachers with real-world experience and expertise.

We offer industry and professional career-focused programmes in the arts, social and related behavioural sciences, engineering, education, and natural sciences and technology, engaging you through applied learning and theory.

At Melbourne Polytechnic, you will be welcomed to a learning environment where class sizes are purposely small enough for you to gain the attention required from lecturers and teachers to gain the skills and

knowledge required to excel in your chosen field. We're ready to help you reach your true potential.

Degree programmes

It's possible to commence study at a certificate level and continue right through to a degree at Melbourne Polytechnic. Our degrees will develop your creativity, critical thinking and interpersonal skills and give you the confidence on graduating to participate in whatever you choose to do next; whether it is further study or joining the workforce. We offer degree courses in:

- Accounting
- Business
- Education (early years)
- Equine studies
- Hospitality management
- Engineering technology (civil)
- Illustration
- Information technology
- Music
- Music industry
- Writing and publishing

Vocational programmes

We also offer certificates and diplomas ranging in length from six months to two years. These are designed to give you hands on practical skills that will align with industry practice and get you the career you want.

**RULE
YOUR
WORLD**

Spanning a wide range of areas, our teachers are all qualified professionals who have years of industry experience and are experts in their fields. Our modern facilities and focused programmes are designed to make you excel in your chosen career. Some study areas popular with our UK students include:

- Accounting
- Building and construction
- Children's services
- Horse breeding (stud management)
- Horticulture
- Hospitality and events
- Locksmithing
- Professional writing
- Travel and tourism

Campus life

Melbourne Polytechnic has nine sites including campuses and training centres. Each one has specialised equipment and technology in place to accommodate the specific courses running there. We offer student accommodation at Yarra House in Fairfield and have an active student engagement programme run through our Student Life and Media programme.

We are proud of an industry standard manufacturing and building centre at Heidelberg and state of the art editing and recording studios at our Fairfield campus, as well as our extensive libraries, student services, conference facilities and retail outlets.

CRICOS: 00724G

“ What the students say

Daniel Kolosi

After a career in a different industry for ten years, Daniel

decided it was time to try a different path – locksmithing.

“I'd already had a few different careers and I was a mature-age student, so I wanted to try something different. Locksmithing appealed to me.” Daniel found the course to be an extremely positive experience. “My teachers were really good, really interested in us. They pushed us hard and it's a really good syllabus. Locksmiths trained by NMIT are highly regarded around the world.” Daniel has subsequently gone on to win a Master Locksmiths Award.

Heather Newman

Heather turned her love of horses into a career

through Melbourne Polytechnic's Bachelor of Equine Studies. A Melbourne Polytechnic study grant of A\$12,000 led her to the United States to complete a short course in Advanced Equine Reproduction.

Heather started riding lessons during high school and worked part-time at her riding school and then at a stud farm. She completed the Certificate II in Equine Industry at school as part of a Vocational Education and Training programme. “Throughout high school I thought I wanted to work with animals,” she says. “At the end of Year 11 I found out about the Bachelor of Equine Studies at Melbourne Polytechnic and thought: that's what I want to do.”

Heather says the Melbourne Polytechnic Bachelor of Equine Studies helped her prepare for work in the industry. “Without it I probably wouldn't have a clue what I'm doing! My favourite subjects were always about reproduction but I liked all the practical aspects of things. You can learn all the stuff in theory but without practising it, it's quite hard to remember.”

Heather is currently working at a thoroughbred stud in Euroa, and as a part-time technician at the Goulburn Valley Equine Hospital in the Equine Reproduction Unit.

More student testimonials can be found under 'our students' at www.melbournepolytechnic.edu.au

TAFE SOUTH AUSTRALIA

Government owned and operated, TAFE SA is South Australia's largest vocational education and training (VET) provider, delivering more than 90 award courses to international students across over 47 modern and well equipped sites.

Over the last 30 years, TAFE SA has helped more than one million students get the careers they want. Courses offered to international students at TAFE SA include certificates, diplomas and advanced diplomas as well as higher education qualifications across a broad selection of study areas.

TAFE SA study areas include:

- Agriculture and biology
- Arts and design
- Building and furnishing
- Business and marketing
- Education and languages
- Electrical and electronics
- Engineering and transport
- Food and wine
- Hair and beauty
- Hospitality and tourism
- Information technology

TAFE SA has strong connections with universities and many of its courses can provide entry to, and/or credit toward, university degrees. In fact, TAFE SA has

over 250 entry and/or credit transfer arrangements with some of Australia's best universities. This means that our students can move on to complete their university degree in less time and at a lower cost.

Campuses and facilities

TAFE SA has 47 campuses which stretch from the heart of the Adelaide CBD throughout the city's suburbs and out to regional South Australia.

Campus facilities are state of the art and offer a variety of specialised training facilities

including virtual enterprises, theatres, studios, restaurants, kitchens, workshops, nursing wards, dental clinics and hair and beauty salons. Campuses also offer a range of facilities for students including libraries, study rooms, computer suites, prayer rooms, child care

centres, cafeterias, student common areas, food preparation facilities and easy access to public transport.

International students generally choose to study at metropolitan campuses, most of them within 15km from the CBD. Some of these campuses include the Adelaide Campus, Adelaide College of the Arts, Regency Park Campus, Gilles Plains Campus, Port Adelaide Campus, Urrbrae Campus, Sustainable Industries Education Centre (Tonsley TAFE).

Teaching and links with industry

Strong working relationships with business and industry mean that TAFE SA courses are designed to give students the real-world skills needed by employers, making our qualifications highly sought after. Some TAFE SA courses offer students the opportunity to gain firsthand experience of working in their chosen field through work placements. Our lecturers are highly experienced and qualified in their field and ensure that they stay up-to-date with current industry skills and knowledge.

Student life in Adelaide

Adelaide's lower cost of living means that students here enjoy great quality of life, with rent, transport costs and food all more affordable than in most other Australian cities. All international students at TAFE SA get free airport pick-up and accommodation support upon arrival in Adelaide in order to help them settle in to their new surroundings more easily.

TAFE SA has its own student accommodation – Regency International House – which is on the TAFE SA Regency Campus, just 15 minutes from the centre of Adelaide. It is close to public transport, shopping centres and a wide variety of multicultural restaurants and offers 24 hour security, comfort and care.

There are many other accommodation options in Adelaide to suit all budgets and needs including student residences, homestay and private rental accommodation.

International students at TAFE SA have access to a wide array of support services in order to make their transition to studying and living in Australia as easy as possible.

Support services are designed to help students succeed and are available from the moment students arrive right through until their graduation.

Services on offer include an orientation programme on arrival; counseling and academic support.

Students can enjoy a great lifestyle living in South Australia, which is one of the largest states in Australia. With a pristine coastline stretching over 3,800kms to unique and spectacular landscapes and places of great cultural interest, there is something for everybody in South Australia. Our state capital, Adelaide, has a vibrant culture, relaxed living and an exciting future. Adelaide is a safe, friendly and affordable metropolis with a bustling retail hub, world-class wine, rich culinary scene and a relaxed multicultural lifestyle. It is also home to more than 400 events throughout the year including the Santos Tour Down Under, Adelaide Fringe Festival, Festival of Arts, and WOMADelaide, just to name a few.

CRICOS: 00092B

TAYLORWEIR INTERNATIONAL SCHOOL OF HAIRDRESSING

To be the best, you need to learn from the best! Taylorweir is a state leader in delivering the most industry relevant curriculum within the National Hairdressing Training Package.

Located in the heart of Northbridge, Taylorweir is easily accessible. Northbridge is the cultural and entertainment hub of Perth, home to the city art gallery, museum, state library and many art and entertainment venues. You will be spoilt for choice with so many cafés, restaurants and bars to visit.

Established in 1997, Taylorweir is the longest established private registered hairdressing training provider in Western Australia, delivering Certificate II, Certificate III and Certificate IV in Hairdressing and the Diploma of Salon Management on behalf of the Western Australian Department of Training and Workplace Development under the National Hairdressing Training Package.

From our start, with just eight students, to a college that today teaches almost 500 students, Taylorweir is a true success story. We regard quality outcomes for students and employers as our core business; our students and employers as equally important stakeholders and training industry competent hairdressers as our mission. We now train 40% of all the hairdressing apprentices and trainees and 90% of all international hairdressing students in Western Australia.

Over the past eighteen years Taylorweir has built up a strong reputation within the hairdressing industry as a training college that provides quality training, producing skilled hairdressers and trainees. It is seen as a college committed to the hairdressing industry, one that can be relied upon to work with industry to achieve its objectives and which provides support and to both its apprentices and its international students.

Working with major sponsor L'Oreal, Taylorweir has the exclusive rights to be the backstage hair styling team for Fashion Central at the Telstra Perth Fashion Festival each September. Three teams of volunteer trainers, apprentices and international students from Certificate III and Certificate IV produce fantastic work across the three days with styles that are curled, pinned and dressed out, teased, tousled and fish tailed and braided, twisted and top knotted! Our students love the chaos and energy working side by side with their trainers.

Our reputation and close relationship with industry employers ensures that our international students not only get the best training but also recognition from the industry that the skills they have gained are of an exceptional standard. Taylorweir graduates are extremely employable.

As an international student at Taylorweir

“ What the students say

“As soon as I started at Taylorweir I knew I had made the best decision for my career. Enrolling as an international student via Study Options in the Cert III in Hairdressing was the best welcome to Australia!

“My lecturers are so helpful and thorough and I love attending classes. The facilities are second to none. It is a great place to learn!

“Encouraged by Taylorweir, I accepted the role of Art Director for renowned session stylist, Lee

Preston. This has given me some amazing opportunities in the fashion industry. Working as part of her team, I have been involved with Sydney Fashion Week and worked alongside the GHD Guest Artists at various events. I've also worked on editorials published in the *Sunday Times Magazine*.”

“Working hard is what I aim to do and great things have come about as a result of that!”

Faye Redfern, UK

you will learn side by side with local apprentices. This is invaluable in the learning environment and is an opportunity to meet and form friendships with local hairdressing apprentices and hairdressers.

Taylorweir offer three qualifications to international students. All are nationally accredited and recognised worldwide:

- SIH30111 Certificate III in Hairdressing
- SIH40111 Certificate IV in Hairdressing
- SIB5021A Diploma of Salon Management

Students gain the skills required by industry through a professional approach to their studies and practical workshop experience.

Certificate III in Hairdressing

This is the minimum qualification required to practice hairdressing in Australia. Tuition is through face-to-face lectures, practice on human hair mannequin heads and structured practical live model workshops. You will learn the skills and knowledge to be a qualified hairdresser in our simulated salon environment.

Upon completion of Certificate III in Hairdressing, students will be qualified to undertake Certificate IV in Hairdressing.

Certificate IV in Hairdressing

This teaches the more advanced areas of artistic skills and knowledge necessary to

perform in the workplace as a talented professional. It expands knowledge of cutting and advanced colouring. The additional units in this qualification include make-up; advanced long hair styling; hair extensions, and conclude with a session styling event. Tuition is through face-to-face lectures, practice on human hair mannequin heads and structured practical live model workshops in a simulated salon environment.

Diploma of Salon Management

Learn the secrets of leading a salon team and a successful salon business with this challenging and comprehensive course, designed to prepare people for management positions in the hairdressing and spa industries. It will give you a benchmark for good practice guidelines for the financial management of a salon, managing staff, marketing strategies, hairdressing establishment regulations and the legal requirements for employing staff. Tuition is through face-to-face lectures, presentations and guest speakers from the industry.

BOX HILL INSTITUTE

International education at Box Hill Institute is not about classrooms and blackboards – it's about the experience of a lifetime!

Box Hill Institute is the place to study in the twenty-first century. Over 1,000 international students from more than 50 countries and territories choose to study at the Institute.

Box Hill Institute provides:

- Training for the job you want
- Training to get ahead in the job you already have
- Getting your foot toward a university course
- The chance to pursue a hobby or interest

Studying at Box Hill

As a student at Box Hill, you will gain the skills and knowledge employers are looking for which can lead to exciting, rewarding careers. You can also gain credits toward further studies at university.

Study at Box Hill Institute is also about making new friendships and exploring new cultures. You will be attending classes with Australian and international students and this, together with the multicultural nature of the local population, creates a welcoming, stimulating learning environment.

The Institute is in Melbourne. Box Hill is a major suburb some 18kms east of the city centre. It is a suburban public transport centre, less than half an hour by train from

central Melbourne and easily accessible by bus. Box Hill is a great place to live and study. It is well serviced by shopping centres, health services, religious centres, restaurants, sporting arenas and parks.

Box Hill Institute has three main campuses, all within walking distance of each other and of central Box Hill.

Government funded

Since our doors first opened, back in 1924, Box Hill Institute has been delivering high quality vocational training to provide students with the skills necessary to begin or further a rewarding career. Box Hill Institute is a government registered and government funded provider. We offer state of the art modern facilities, a high standard of teaching, security and excellent value for your tuition fees. Whether you are studying to gain skills to further your career or continuing on a tertiary education pathway your Box Hill Institute award will be nationally recognised.

What can you study?

Study levels offered at Box Hill range from certificates, diplomas and advanced diplomas through to bachelor and associate degrees. We offer courses in over 50 different fields of study, catering to the needs of a diverse range of interests. This makes for a stimulating blend of interesting people and ideas.

Box Hill Institute offers a range of bachelor degrees in subjects including:

- Commerce (applied)
- Fashion
- Computer systems (networking),
- Biotechnology and innovation
- Hospitality management
- Applied music

New and popular career courses include:

- Bachelor of Commerce (Applied)
- Bachelor of Fashion
- Bachelor of Hospitality Management

- Bachelor of Computer Systems (Networking)
- Bachelor of Biotechnology and Innovation
- Diploma of Nursing (Enrolled/Division 2 Nursing)
- Diploma of Automotive Technology

Other programmes offered at certificate, diploma and advanced diploma include:

- Business
- Biotechnology and innovation
- Floristry, beauty and hairdressing
- Information and computer technology
- Fashion studies
- Travel and tourism
- Hospitality

Most courses at Box Hill Institute cost between A\$11,900 and A\$15,320 a year in tuition fees. Bachelor degrees offer great value at A\$15,320 per year for tuition fees.

Our graduates can apply for further studies at many Australian universities. Students who have successfully completed a diploma or advanced diploma may get up to 1.5 years credit toward a bachelor degree

undertaken at an Australian university or at Box Hill Institute.

 **International support services**

The Institute provides a range of services, including general welfare support and counselling along with information for further studies. Our services include:

- Free airport transfer service
- Free accommodation placement service
- Free counselling
- Free study support programmes
- A comprehensive welcome festival

THE WEST AUSTRALIAN INSTITUTE OF FURTHER STUDIES

The West Australian Institute of Further Studies, better known as WAIFS, is a young institute and as a reflection, we have chosen orange as our signature colour. See orange, think of WAIFS! The colour reflects the fresh approach we have taken to training and services towards our students. We offer the perfect combination of private sector service standards, world class resources, and the academic guarantee of qualifications approved by the Australian Government.

In 2010 WAIFS opened its doors for the first time. We started with 15 students and one campus; today we have over 1,200 enrolments each year and two campuses.

In this short time university pathways and advanced standing for our qualifications with a number of universities are just a few of our achievements. We are approved by the Australian Government to participate in traineeship programmes and delivering courses under the PIT (Priority Industry Training) scheme for local students, which means you may find yourself studying with Australians as well as other nationalities.

Our latest milestone was becoming an approved 572 Streamlined Visa Processing Provider. In 2014 the Department of Immigration and Border Protection approved WAIFS, as one of the elite group of registered training organisations in Australia, to become a 572 VET-sector streamlined visa processing provider, which means student visa applicants are generally subject to lower evidentiary requirements, similar to Assessment Level 1, irrespective of the passport the student holds.

Our campuses

Our main campus in Joondalup, just a twenty five minute drive north of Perth. The city of Joondalup has a relaxed, casual atmosphere with cultural, civic, commercial and residential properties built on the edge of Lake Joondalup. The surrounding regions

are renowned for their white sandy beaches and unpolluted environment. Visitors and locals alike go to Lake Joondalup to relax and have a barbeque at one of the many picnic spots. In the town centre, a major retail centre (the biggest in Western Australia) offers shoppers a huge range of goods from high street stores to specialist shops. Train and bus terminals, medical centres, universities, sporting venues and commercial centres are all within a short distance. Students don't need to worry about nightlife activities, as there is a large variety of great restaurants, cafes, pubs and clubs in Joondalup.

Our Highgate campus complements the main Joondalup campus, and provides a more central alternative for students. The campus is within walking distance of Perth Central train station and of the popular shopping and eating strip (especially the suburbs of Mt Lawley and Inglewood). Beaufort Street is also well serviced by public transport with a bus stop directly outside the WAIFS campus.

We are proud of our academic outcomes and are dedicated to excellence in teaching and learning, striving to be recognised as a school which maximises learning opportunities to ensure students finish with a clear and focused pathway after their studies. WAIFS trains in the following areas:

- Accounting
- Business
- Management
- Aged care
- Children's services
- Community sector management
- Dental assisting/dental technology
- Work health and safety

Our courses have multiple start dates, attractive timetables and offer strong pathways to university.

Practical placements are included in a number of our courses. The placements are arranged by WAIFS, as we believe that it is essential for students to gain practical experience during their studies. One good example of this is our children's services programme. Here's what one of our students has to say about her experience:

"My name is Maeva. I am from France and I am 24 years old. The course I am following is the Diploma of Early Childhood Education and Care. This course is really helpful and gives me all the knowledge and the skills I need to be a good professional qualified educator. I like WAIFS because the teachers and other staff members are very qualified, friendly, supportive and give me all the skills I need to improve myself. I have found a part time job as a coordinator assistant in a new childcare service in Nedlands which gives me the opportunity to improve my skills, to put in practice what I have learned, and to progress in this industry that I love. If you want a career that you love and want the knowledge and the skills to get to your dream job, don't think twice and go for it!"

We wish you all the best in your decision to study in Australia. Please contact us via Study Options (mail@studyoptions.com) who will guide you through the enrolment process.

MEGT AUSTRALIA

MEGT Australia is a not-for-profit organisation established in 1982 which specialises in education and training for employment, apprenticeships and traineeships. MEGT operates in every Australian state as well as in the UK.

Childcare industry facts:

Australia is set to experience a mini baby boom (34.2%) over the next five years, with the childcare industry set to surge as the country's birth rate rises by 6.4%. (source: IBIS World). As a result, there are currently significant employment opportunities within the sector in Australia which are expected to continue for years to come.

In response to this Australian employment need, MEGT delivers early childhood education and care programmes designed to provide you with practical expertise that you can take straight from our classroom into the workplace. Learning is doing, not just studying theory. This practical experience aims to give you a real advantage over other graduates.

Career pathways to a job or university

With an MEGT qualification you can directly enter the workforce with a certificate or diploma, or build credits from our diploma toward a university degree. MEGT Institute maintains and is developing ongoing relationships with a number of higher education institutions across New South Wales and Victoria.

University pathways

We have formal articulation arrangements with universities where you can be granted credit for units studied in your diploma programme. Students completing the Diploma of Early Childhood Education and Care through MEGT are guaranteed admission and 12 months full-time study equivalent of credit towards the Western

Sydney University (WSU) Bachelor of Arts, and are eligible for entry into the Bachelor of Education (Birth to Five years) and the Bachelor of Education (Early Childhood and Primary) at ACU.

Work after graduation

Graduating diploma students can also apply for a training and research visa through MEGT to work full time in a childcare centre while up-skilling in centre management.

Work placements (during the course)

MEGT Institute arranges for students studying on campus to undertake a work placement in a registered education and care service. This service is offered free of charge on behalf of our students, unlike many other colleges offering this course in Australia who require you to find your work placement independently. Work placement for both our day and evening programme consists of three days per week in 10 work placement weeks over the duration of the course. This totals 30 days (240 hours).

Training methods

Our courses involve a combination of classroom and online learning, resource development, practical sessions, research and project work plus work placement in a registered education and care service. Students are required to attend scheduled structured training for a minimum of 20 hours per week: 15 hours face-to-face and 5 hours online. We use a range of assessment methods including role plays, written assessments, skills demonstration, projects, training records and work samples for the assessment of competency.

Modern facilities

Our courses are delivered in light and modern campuses in the heart of Sydney and Melbourne CBD. Both campuses are a

few minutes walk to all primary forms of transport. Students have access to computers and free wifi across the campuses, as well as to large, comfortable classrooms, a simulated childcare centre and well-resourced kitchen facilities. MEGT Institute offers students access to support staff and extra curricular activities to ensure students feel well supported and welcome. Our campuses have a busy friendly feeling, attracting students from all over the world.

MEGT courses
